

A simplified approach to personal lines for an easier way to meet member needs.

Special Coverage Personal Property (All Risk)

We make it easy to offer members broader protection for their property

We live in a world full of risks. Fortunately, HUNT makes it easy to protect against them, even when they're not specifically listed in a policy.

Normally, a bucket of paint spilled all over expensive furniture and flooring would be a big out-of-pocket expense because it's not a named peril, but our Special Coverage Personal Property (All Risk) endorsement can cover this type of situation.

Special Coverage Personal Property (All Risk) can be added to property policies with a simple click to cover risks that aren't specifically excluded in the policy language.

This gives members protection they want with broader coverage of their property, and this gives you the ability to customize their policy.

Customers who select the Special Coverage Personal Property (All Risk) endorsement have the comparable loss settlement to the ISO HO5 Policy Form.
