

## A simplified approach to personal lines for an easier way to meet member needs.

Valubles Plus (Inland Marine) provides broad coverage for customers who require additional protection beyond the base homeowners policy for specifically defined personal property types such as jewelry.

### How does it work?

There are three different Valubles Plus coverage options:

**Scheduled personal property:** Covers specific items that are listed on the schedule. Covered losses are paid at replacement cost.

**Scheduled personal property agreed value:** With this endorsement, covered losses are paid at the agreed value pre-determined in advance of a loss.

**Blanket personal property:** With this endorsement, groups of items may be covered – without specifically naming them on the schedule. Covered losses are paid at replacement cost.

**NOTE:** Stand-alone Valubles Plus (Inland Marine) policies are not available in One Product. Valubles Plus coverage is available as an endorsement to a home, tenant, or condo policy.
